

## XIX International UIE Congress Evolution and New Trends in Electrothermal Processes

### Information for sponsors

History of International UIE Congress is over 80 years long. The first event took place in La Haye, Netherlands, in 1936. Then, World War II interrupted all scientific meetings in Europe, so that the second Congress took place only in 1947, symbolically at the same place. Since this year, a series of 16 events of this kind were organized worldwide in 3–6-year intervals. The last ones took place in Durban/South Africa 2004, Krakow/Poland 2008, St. Petersburg/Russia 2012 and Hannover/Germany 2017. Now, the Czech Committee of Electroheat and the University of West Bohemia organize the XIX International UIE Congress on Electrotechnologies for Material Processing in Pilsen (Czech Republic) from 9th to 11th September 2020.

In recent years, around 140 professionals from both the industrial and academic worlds have participated in the Congress. There are colleagues from the field of heat treatment of metals, induction heating, and other areas. The blending of practitioners and academics is both beneficial and inspiring for both.

### Scientific Committee

- Prof. E. Baake, Leibniz University Hannover, Germany
- Prof. J. Barglik, Silesian University of Technology, Poland
- Prof. F. Bay, Centre for Material Forming, Mines Paristech, France
- Prof. Y. Blinov, Electrotechnical University St. Petersburg, Russia
- Prof. V. Bojarevics, University of Greenwich, UK
- Prof. V. Demidovich, Electrotechnical University St. Petersburg, Russia
- Prof. P. Dold, CSP Fraunhofer, Germany
- Prof. I. Dolezel, University of West Bohemia, Czech Republic
- Prof. F. Dughiero, University of Padua, Italy
- Prof. Y. Fautrelle, INP Grenoble / CNRS, France
- Prof. M. Forzan, University of Padua, Italy
- Prof. S. Galunin, Electrotechnical University St. Petersburg, Russia
- Dr. G. Gerbeth, Helmholtz-Zentrum Dresden-Rossendorf, Germany
- Prof. A. Jakovics, University of Latvia, Latvia
- Prof. C. Leonelli, University of Modena-Reggio Emilia, Italy
- Prof. S. Lupi, University of Padua, Italy
- Prof. B. Nacke, Leibniz University Hannover, Germany
- Prof. K. van Reusel, Katholieke University of Leuven, Belgium
- Prof. E. Wang, Northeastern University, China

## Organizing Committee

- Prof. I. Doležel, Chairman, University of West Bohemia, Czech Republic
- Prof. J. Kožený, Chairman, University of West Bohemia, Czech Republic
- Assoc. Prof. V. Kotlan, Local Organizer, University of West Bohemia, Czech Republic
- Dr. D. Roť, Local Organizer, University of West Bohemia, Czech Republic
- Dr. L. Šroubová, Secretariat, University of West Bohemia, Czech Republic

## Main Topics

- Material processing by heating and melting
- Magnetohydrodynamics in industrial processes
- Production processes for innovative materials and products
- Process control and optimization
- Energy efficiency and sustainability of industrial thermal processes
- Efficient and sustainable energy management of buildings

## Conference Venue

The conference will take place in the historical conference center Secese of the Pilsner Urquell Brewery, and catering will be provided by the famous brewery restaurant Na Spilce.

Pilsner Urquell brewery – Conference center Secese  
U Prazdroje 7,  
304 97 Plzeň,  
Czech Republic

## Sponsorship Information

The XIX International UIE Congress is a prime marketing opportunity to address lots of experienced professionals as well as young researchers in the field of heat treatment of metals, induction heating and others presenting and discussing the current challenges in these areas.

We cordially invite you to contribute to a successful organization of this important conference by your sponsorship. Your engagement will be the great support making this conference to an unforgettable and pleasant event.

The sponsorship-modalities will be confirmed by a special sponsorship contract, which will be prepared after your response to the organizing committee.

At the same time, each kind of sponsorship e.g. as donator sponsorship is very welcome and will be mentioned in an appropriate form.

If the sponsorship should be directed to a special event, please note this in the e-mail.

### **Sponsorship will be used mainly for:**

- a) Conference bag
- b) Coffee break
- c) Badge lanyard
- d) Welcome reception
- e) Banquet
- f) Gala dinner

## Packages for sponsors

### Package 1:

This package includes logo on the place, space in conference proceedings, materials in the packages for participants, one conference fee, paper **(1000 €)**.

### Package 2:

The content is the same as package 1, but it also contains one more conference fee and space for presentation in the form of a special lecture **(3000 €)**.

### Package 3:

The content is the same as package 2, but there is the claim to a presentation stand **(5000 €)**.

**Other prizes, terms, and conditions will be agreed individually at joint meetings.**
